Item #01004-30B
UPC NO. 896526002057
Inner Box of 12 Dim:10"x7"x12"
Master Box of 48 Dim:22"x17"x10"

un-du® is the only award winning "All in One" adhesive removal system that temporarily neutralizes all self sticking and pressure sensitive stickers, tapes, labels, and adhesives on contact and then evaporates without leaving behind any oily greasy mess to clean up. un-du's patented attached scraper eliminates the need for razor blades, knives, scissors, etc. that can scratch the surface when removing adhesives. Customers also like the idea that after they remove adhesives they can re-use them after they dry.

un-du® has been known to be used in the home, office, school, antique collectors, hobby/craft, scrapbookers, automotive detailers, university bookstores, libraries, archivalists, law enforcement, Federal and State government historical document agencies, auto/boat licensing agencies, book stores, publishers, entertainment industry, commercial janitorial services, home cleaning companies, collector's of memorabilia, etc. There is no other sticker, tape, label, and adhesive remover in the world that works as great as un-du® does! un-du Original formula CANNOT BE SOLD INTO CALIFORNIA! Check out the NEW VOC Compliant un-du.

NEW un-du® Sticker, Tape, and Label Remover – VOC Compliant. un-du® has done it again with the introduction of our environmentally VOC compliant product for those who are especially

sensitive about our great earth. Our un-du® VOC friendly product works just like the original un-du® with the exception of one thing, the new un-du® VOC takes longer to evaporate. The original un-du® formula evaporates within minutes while the new un-du® VOC product will take longer to evaporate. The upside of the VOC compliant product is that you will get 30% more uses because it takes longer to evaporate meaning you will use less un-du® to remove those adhesives and there is no smelly odor.

un-du® has developed a very strong and loyal customer following who are always looking for different retail opportunities to purchase un-du®. un-du® provides great profit margins and does not replace any of your existing cleaning products.
