DIRECTIONS FOR USE

Book publishers self sticking UPC labels and stickers can be safely and easily removed and repositioned using un-du label remover.

Apply several drops of un-du into the scraper attached to the un-du bottle. Start at one end of the label and allow un-du to flow over the top or underneath the label.

Gently guide the scraper underneath the label edge and start working your way underneath the entire label.

Apply drops of un-du as needed to the label and allow the attached scraper to safely lift off the sticker

If residue remains on the book after removing label, simply apply small amount of un-du to tissue and wipe up and off the cover.

BENEFITS

- Works on all self sticking adhesives on contact.
- Leaves no oily or messy residue
- Air dries in minutes
- Will not damage book covers
- VOC compliant formula available for California.
- Attached scraper tool makes removal quick and easy

un-du® sticker, tape, label and adhesive remover

un-du is taking the library market by storm. This "all in one award winning adhesive remover utilizes a patented formula and "all in one" removal system that safely and quickly removes all self sticking and pressure sensitive stickers, tapes, labels and adhesives on contact. un-du will not leave behind any oily or greasy mess that can possibly harm books and also removes gum from carpeting. UPC's added to books and labels by publishers can be easily removed with un-du. Trust un-du when removing those pesky labels.

un-du original formula.....\$7.99

un-du VOC compliant formula (for California).....\$8.99
